

RALPH JOHN B. SANTOS

Information Technology | Android & Web Development

Palihan, Hermosa, Bataan | +63 976 035 6958 | ralphjohnsantos01@gmail.com | potechto.github.io

PROFESSIONAL SUMMARY

Entry-level Information Technology graduate with experience in Android and web application projects, application planning, UI/UX workflows, Firebase, testing, debugging, and AI-assisted development. Experienced in coordinating project requirements, organizing features and workflows, testing system functionality, and supporting development through academic, personal, and internship projects. Seeking an entry-level IT or technology related role where I can continue learning and contribute my technical, organizational, and problem-solving skills.

TECHNICAL SKILLS

Development Workflow: Application Planning, UI/UX Workflow, Testing, Debugging, Documentation, AI-Assisted Development

Mobile Development: Android Studio, Android SDK, XML Layouts

Backend / Cloud: Firebase Authentication, Cloud Firestore, Firebase Cloud Messaging

Development Tools: Git, VS Code, ADB, PowerShell

Productivity / Data: Microsoft Excel, Google Workspace, MS Office

Design / Media: Canva, Photoshop, CapCut, DaVinci Resolve

AI tools and software assistance: ChatGpt, Gemini, DeepSeek, OpenAI

SELECTED PROJECTS

TASKMATE - AI Personal Secretary | *Kotlin, Android SDK, Firebase, OpenAI/ChatGPT API, WorkManager, AlarmManager*

AI-powered Android application for managing schedules, reminders, routines, tasks, events, and notes through conversational voice and text interaction.

- Designed a lifecycle-based event system supporting creation, scheduled reminders, confirmation, rescheduling, post-event follow-ups, and completion tracking.
- Integrated Firebase Authentication, Cloud Firestore, Firebase Cloud Messaging, speech-to-text, text-to-speech, and calendar-based event management.
- Led product architecture, UI/UX workflow definition, reminder logic, testing, debugging, and documentation.

MONIAPP - Inventory & Expiration Monitoring | *Java, Android Studio, Firebase*

Mobile stock and expiration monitoring application designed for sari-sari stores to improve inventory organization and reduce product waste.

- Built inventory management, expiration tracking, stock alerts, analytics/reporting, and admin approval workflows.
- Served as Lead Developer and Project Leader for implementation, planning, UI improvements, debugging, testing, and workflow coordination.

QUANTUM DANCE STUDIO - Booking Management System | *HTML, CSS, JavaScript, VS Code*

Ongoing web-based booking management system for scheduling, role-based administration, and notification workflows.

- Supported frontend and backend development, debugging, testing, UI improvements, booking approvals, cancellations/transfers, and automated email workflows.

ADDITIONAL PROJECTS

GCASH TRANSACTION TRACKER | *Microsoft Excel, Spreadsheet Formulas, Conditional Formatting*

Spreadsheet-based tracker for organizing GCash cash-in/cash-out records and improving small-business transaction documentation.

- Planned the data structure and formula logic for balance monitoring, approval/remarks tracking, missing-transaction review, summaries, and reporting.

BLINKOUT - Multiplayer PvP Game Concept | *Kotlin, Java, Firebase, Android Studio*

Paused mobile multiplayer staring-contest game concept focused on competitive gameplay, progression, and distraction-based features.

- Planned multiplayer architecture, matchmaking concepts, blink detection/alignment systems, inventory/cosmetics, profiles, leaderboards, and progression workflows.

EXPERIENCE

Software Development Intern - Chase Integrated Systems Inc. | Dinalupihan, Bataan | 2026

- Contributed to website development using Visual Studio Code and supported frontend and backend work through pair programming.
- Assisted with debugging, testing, collaboration, and problem-solving during development.

On-the-Job Trainee - Office of the Municipal Civil Registrar | Dinalupihan, Bataan | 2024

- Organized and filed civil documents including birth, marriage, and death certificates and supported clerical record-management tasks.
- Gained hands-on experience in administrative work, data organization, and public service.

EDUCATION

Bachelor of Science in Information Technology - Eastwoods Professional College of Science and Technology | 2025-2026

Diploma in Science in Information Technology - Eastwoods College of Science and Technology | 2022-2025

College of Subic Montessori, Dinalupihan Campus | 2016-2021 With Honor, Loyalty Award, Deportment Award

TRAINING & SEMINARS

- Responsible AI, Ethics, Bias and Governance - 2026: ethical AI use, bias detection, transparency, accountability, governance, privacy, and trustworthy technology practices.
- Transitioning from Academic Projects to the IT Industry - 2026: workplace communication, teamwork, professionalism, career preparation, and industry expectations.
- LEGO Robotics Introduction - 2023: robotics and automation fundamentals, teamwork, and creative problem-solving.
- National Service Training Program (NSTP) - Community Service Certificate - 2022: community outreach, civic awareness, leadership, and social responsibility.
